

AnteRoom

PATENT PENDING

Hospital Room Isolation

AnteRoom **protects patients** by isolating individual rooms during renovation, construction and maintenance **reducing exposure to dust and associated pathogens.**

- The AnteRoom **magnetically seals** to a standard 3'0" doorframe with extension up to a 48" door.
- The AnteRoom has floor levelers that allow for a **secure and steady contact** with the door frame.
- An external Negative Air Machine can be attached to either side to facilitate traffic and accommodate space needs.

AnteRoom **saves time and money!** They are quick to set up and easy to move. **No more expensive temporary walls.**

- AnteRoom pays for itself vs. other options after just one room. After that **AnteRoom will begin saving money on future room isolation projects.**
- AnteRoom includes 3 windows for visibility when exiting and can be disassembled for flat storage.
