Required**

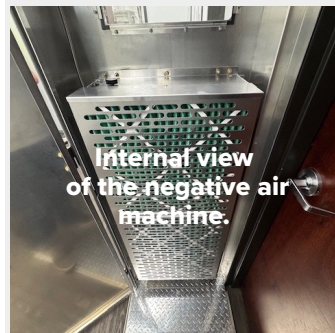

Filtration

Embedded HEPA filtered
negative air machine with
TWO digital monitors
(1 internal/1 external).

Fan speed:
25-450 cfm

Each unit tested and
certified with
HEPA 99.99%.

Internal view
of the negative air
machine.

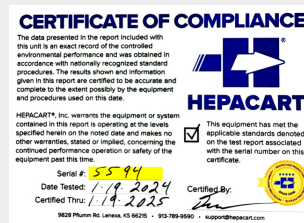

HEPA filter mounted
post-fan for superior
particle reduction.

Integrated key pad lock
and handle set.

External view
of the HEPA exhaust
and diffuser grill.

Each unit individually
tested for HEPA filtration
compliance.

Multi-Functional

Renovation

Creates a temporary
vestibule to keep dust
in the workspace.

Pandemic/Surge Response

Converts a standard
patient room into an
isolated space.

Unit Sizes

HEPAROOM 48
Larger unit and our
most popular model.
Natively fits
48" doors.
