

Far-UVC Tech

- Gerbuster with UV-FORCE includes One (1) 18" Care222 lamp with a 3,000 hour lifetime
- Includes One (1) 300 watt power supply
- High reflectivity lamp tube for maximum exposure
- Far-UVC lamp sight glass

Best in Class! Convenience

- Includes 8 ft. self storing extension cord
- Easy HEPA and pre-filter changes
- Easy to move from location to location
- Simple operation with integrated controls

**UV
FORCE®**

More Key Features

- Tamper-resistant / child proof filter cabinet
- Simple operation with integrated controls

Best in Class! Filtration

- HEPA-Filter: 99.97% medical grade exceeds ASHRAE52.2 MERV 16 rating
- MERV-7 pre-filter protects the HEPA
- Each filter tested per IEST standards:
Air flow IEST-RP-C001
Leakage tested per IEST-RP-CC034

Best in Class! Fan Motor

- ECM fan motor uses up to 88% less energy and less electricity cost
- 50,000 hour life expectancy -- nearly 6 years of continuous use
- Quieter than competing models
- Precision-tuned, variable speed air volume control for Germbuster 300 and optimal 1-speed setting for Germbuster Far-UV

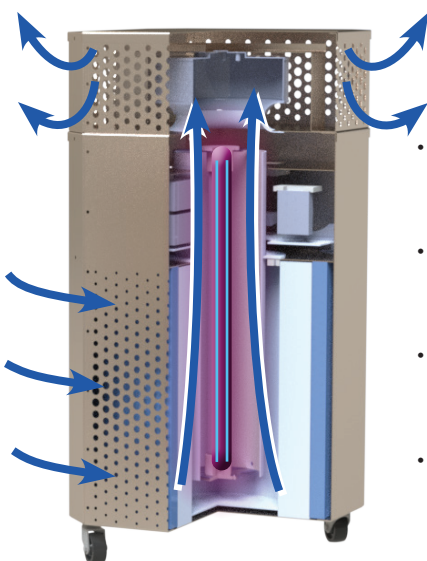

Build Quality

- Crafted with the same premium quality as the flagship HEPACART®
- Made of commercial grade stainless steel
- Assembled with blind self-sealing rivets
- Unit moves on heavy duty casters
- Looks professional in any environment
- Easy to clean and maintains appearance (no discoloration) through daily cleanings

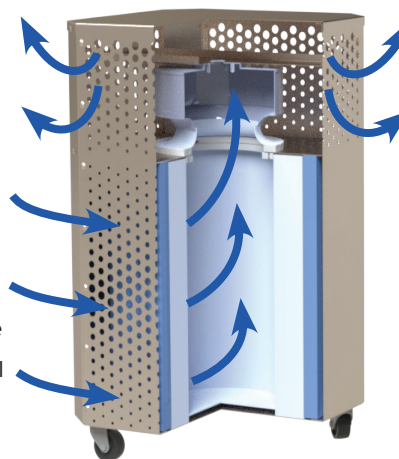

HOW IT WORKS

- Dirty air is pulled in from the side walls of the unit on two sides
- Air is pulled through the MERV7 pre-filter and the HEPA filter.
- Air is pulled up through the length of the Far-UV lamp ensuring maximum dwell time
- Filtered air is exhausted on all four sides of the unit

HOW IT WORKS

- Dirty air is pulled in from the side walls of the unit on two sides
- Air is pulled through the MERV7 pre-filter and the HEPA filter.
- Filtered air is exhausted on all four sides of the unit
