Height: 7.0' to 10.6'
Weight: 62 lbs.

Mobile Platform
ECUMP4 | \$1,050

Mobile Platform Tow Cart
ECUMPTC | \$395

ECU Corridor Flange Accessory
ECU4-CORFLA | \$1,395

ECU4 Sidewall Access (SA) Flange
MTIECU4-SWF | \$995

RUN A SAFE AND EFFICIENT FACILITY

HEPACART provides dust containment, air filtration, and surface disinfection solutions to keep people safe in high-risk environment

SAFETY

HEPACART certifies each filtration unit specifically for HEPA air quality and air flow to ensure superior safety.

DURABILITY

With rugged aluminum construction, our products will provide you a virtual lifetime of use

SUSTAINABILITY

Using HEPACART products reduces waste associated with disposable tents and other temporary enclosures.

PRODUCTIVITY

HEPACART products are designed for portability, efficiency, and effectiveness in many environments.

FLEXIBILITY

Over 50+ retrofit options make HEPACART a dynamic product that can evolve from one project to the next.

AESTHETICS

HEPACART products mean you are serious about infection and dust control.

SOLUTIONS TO RUN A SAFE AND EFFICIENT FACILITY

HEPACART was initially developed to protect patients and improve productivity during hospital construction, renovation and maintenance projects. All of our products are designed for contractors and healthcare operations personnel to comply with the Infection Control Risk Assessment Guidelines to aid in infectious disease control, dust abatement and dust containment. HEPACART products are used to protect the environment in many types of high-risk applications.

TRUSTED BY OVER 5,000 HEALTH FACILITIES WORLDWIDE

The HEPACART family of products is trusted by healthcare facilities across all U.S. states and Canadian provinces. Internationally, the HEPACART brand is trusted by healthcare facilities in the Middle East, United Kingdom, European Union, Australia, Asia, and South America.
