

CAP CLASSIC SPEC SHEET

HEPACART® CAP patented series of wire pulling devices to help protect wire, ceiling, grid systems, and occupants while adding productivity. CAPs will guide wires and cables through an opening into the ceiling while utilizing a roller system to protect the wiring. The opening uses a horsehair brushes to keep dust, dirt and debris from falling out of the ceiling.

Features:

- Aluminum construction
- Four (4) rollers per unit
- Replaceable horsehair bristles and rollers
- Standard CAP CLASSIC fits 2'x 2' grid (available 2' X 4' with CAP EXTEND)
- Starting at 8 pounds
- Replacement Brush Kit: CAP-BRK
- Can be supported from building structure
- US Patent #8397451
