

CAP FIBER - EXTEND COMBO SPEC SHEET

HEPACART® CAP FIBER – EXTEND COMBO gives the option to fit a standard CAP FIBER into a 2' x 4' ceiling grid, using an added CAP EXTEND. Any 2' x 2' CAP can be partnered with a CAP EXTEND for combination.

Features:

- Combo Set of CAP FIBER and CAP EXTEND
- Long rectangular opening to allow for the large radius bend required for fiber optic cabling
- Clear window allows for visibility into above ceiling area to monitor cable
- Aluminum construction
- Four (4) rollers per unit
- Replaceable horsehair bristles and rollers
- Starting at 8 pounds
- Can be supported from building structure
- US Patent #8397451
