

**CABLING ACCESS POINTS METRIC
(CAPMET) SPEC SHEET**

HEPACART® CAP patented series of products of wire pulling devices to help protect wire, ceiling, grid systems, and occupants while adding productivity. CAPs will guide wires and cables through an opening into the ceiling while utilizing a roller system to protect the wiring. The opening uses a horsehair bristles to keep dust, dirt and debris from falling out of the ceiling.

Features:

- CAPMETRIC used for EU/Metric Ceiling Tile Dimensions
- Aluminum construction
- Four (4) rollers per unit
- Replaceable horsehair bristles and rollers
- Can be supported from building structure
- US Patent #8397451

HEPACART® Cabling Access Points (CAPMET)	
Model	CAPMET
Weight	3.63 kg
Approximate Dimensions	596mm X 596mm X 90mm
Opening Dimensions	51mm x 152mm
Grid Size Compatible	600mm x 600mm
Number of Rollers	4
